<b>REMARKS:</b>  [REDACTED] called and told me that the facility was stinking she said that it has been smelling quite often this month. She said that she has never had this odor problem this early in the season. She gave me a list of dates and times that she had recorded on her calendar. She said she would only smell it when she was outside this time of year. February      7      7:00 AM      rank 12      10:00 PM 13      9:00 AM      8:30 PM 14      7:00 AM 20      7:00 AM      stinky 22      13:30 PM      smelled 24      9:50 PM      rank 25      5:30 - 9:30 PM

<p>REMARKS:</p> <p>Received a complaint regarding odors from this facility. [REDACTED] claims that odors from this facility have been ongoing since Saturday. Today they are off and on but when the odor is detectable it is quite strong. Winds today are out of the NNE at about 10 mph indicating that any odors from the facility would impact [REDACTED] and her neighbors. She has been in contact with the facility about this issue. She is also claiming a number of violations regarding the wastewater in the ponds located at the facility. I will copy Janice Hauer on this complaint.</p>

REMARKS:  Received this complaint via the PEAS system from operator Rob Franks. [REDACTED] is located on [REDACTED] about two miles from the facility. She noted that the odor from the facility had a sulfur element to it that was quite strong. I explained to her the various actions the facility was taking to reduce odors at the facility. She seemed satisfied with what was being done. I referred her to Al Retlewski for further questions regarding the facility.

<b>REMARKS:</b>  <div style="background-color: black; width: 100px; height: 15px; margin-bottom: 5px;"></div> called and left this message. Hi Al it's <span style="background-color: black; color: black;">[REDACTED]</span> again. It smells again this morning. I called the 800 last night because it was so bad all day and that lady more or less told me not to bother them again. That I should be calling you during the day. Which doesn't makes me thrilled. You know I am sorry I interrupted her evening. The smell was bad all day yesterday. I was at work and I didn't hear about it until I got home. So I called the number because it was still rank. Anyway if you want to talk to me I am at work. the number is <span style="background-color: black; color: black;">[REDACTED]</span> I will be there at 8 until 5. I will talk to you later. Bye.

<b>REMARKS:</b>  <div style="background-color: black; width: 100px; height: 1.2em; margin-bottom: 5px;"></div> left this message. Allen this is <span style="background-color: black; color: black;">[REDACTED]</span> Whitewater Township Grand Traverse county. This is regarding Williamsburg Receiving and Storage. Alias Cherry Blossom LLC. We have been gone all day We are located on <span style="background-color: black; color: black;">[REDACTED]</span> a mile east of the plant and we had the smell when we returned. I don't appreciate it and we are wondering what in the world can be done about it. My phone number is <span style="background-color: black; color: black;">[REDACTED]</span> if you need to get in touch with us. Thank you.

<p><b>REMARKS:</b></p> <p>Hi Al this is <span style="background-color: black; color: black;">[REDACTED]</span> I'm driving down Angell Rd and smelling the stink and thinking of our neighbors to the south of us that are putting up with it today. Just wondering what is going on between you and Water people. There is a lot of hubbub and conversation that goes on at our plant The stuff Chris gets away with we would be put out of business for. I guess I would like to know what is going on. And how much longer we are going to be putting up with the stink. If anybody aught to know where the waste water is going you guys should know.</p> <p>I was talking with <span style="background-color: black; color: black;">[REDACTED]</span> and when I couldn't give him an adequate answer on these questions I transferred him down to Janice Hauer.</p>

<b>REMARKS:</b>  [REDACTED] and left this message. Hi Allen this is [REDACTED] I am [REDACTED] wife. I think you have already got his phone number. I just want you to know that I am feeling quite trapped here with this odor. It is worse than ever. We have put up with this all summer long and now we are coming into the fall and it's still here. I don't want to talk about it any more. I want to know specifics about exactly what is being done and when it is going to be over. I would appreciate knowing that. So you can give us a call if you have got any statistics on that. Thank you I transferred this call down to Janice Hauer. She talked with [REDACTED]

<b>REMARKS:</b>  <div style="background-color: black; width: 100px; height: 15px; margin-bottom: 5px;"></div> called and left this message. Allen this is <span style="background-color: black; color: black;">[REDACTED]</span> It is about 6:30 Quarter to 7 I guess. Sunday evening and I guess I don't have anything different to say except that we are blessed with a south west wind and we are enjoying this thing instead of the neighbors to the south of us. The stink is still here. And it always seems to be in the evenings or early mornings that we get the worst of it. I'm calling to say that it is still here and I don't know if anything is being done. Don't see anything different. So maybe you can enlighten me as to any progress being made. Because it is pretty nasty tonight. We were enjoying some grilling outside and ended up moving to the inside into the dining room instead of being able to be on the screened in porch because the stink is too nasty to appreciate this food. So that's my story tonight. I'll

<b>REMARKS:</b>  <div style="background-color: black; width: 100px; height: 1.2em; margin-bottom: 5px;"></div> called the PEAS line to report about he odors coming from Williamsburg Receiving. Different smell today. So bad that it woke her up sick to her stomach from it. The smell has filled her house. She said the smell was so bad that the kids could not stand outside to wait for the school bus.

<b>REMARKS:</b>  <div style="background-color: black; height: 1em; width: 100px; margin-bottom: 5px;"></div> called and left this message for Shane who transferred it to me. Yes Shane My name is <span style="background-color: black; color: black;">[REDACTED]</span> I live at <span style="background-color: black; color: black;">[REDACTED]</span> here in Williamsburg Michigan. It is Saturday night about 11 o'clock and we have had to close the doors and windows because the odor coming from the pond over here at Chris Hubbell's place. It is very bad tonight and it's very hot and I really wanted to be able to cool the house down but here we are faced with this odor again. I will continue to call and I am going to encourage others to do likewise. Something has got to be done about this. We shouldn't have to put up with this again. I understand he is not pumping out of the pond anymore. He is just trying to aerate it and it's not working. I would appreciate a call back from you to find out what is going on. What's being done if anything and I'd

<b>REMARKS:</b>  <div style="background-color: black; width: 100px; height: 1.2em; margin-bottom: 5px;"></div> called and left this message. Hi Al Its's <span style="background-color: black; color: black;">[REDACTED]</span> It's Thursday 4:00 AM the smell came in my bedroom window and I had to close my window. You know and it's like 90 degrees in my house and the smell hung around my dog didn't even go for a walk this morning it smelled so bad outside. I know you guys smelled it Monday. I know it made <span style="background-color: black; color: black;">[REDACTED]</span> sick. Now she knows how I feel. It came into the house through the windows again last night. It seems to be getting worse, not better. I know you fined him or your thinking about it. But it's been. My whole calendar is filled ever since the first of June with all kinds of notes. It smelled that bad this whole week. I'm just getting ready to go to work. I'll talk to you later.

<b>REMARKS:</b>  [REDACTED] called me to report the continuing very strong odors from Williamsburg Receiving. [REDACTED] [REDACTED] In addition, she stated that she was awakened from a sound sleep by the odors at 4:00 am over the weekend - they were that strong!! She closed all of the windows and turned on the air conditioner (it was very hot and humid out all night). The odors were still coming into the house through the air conditioner. She was forced to turn off the air conditioner to get the odors to reduce to some extent. She is VERY frustrated over the continuing odors and the continued high level of odors - especially at night.

<b>REMARKS:</b>  <div style="background-color: black; width: 100px; height: 1.2em; margin-bottom: 5px;"></div> called to report bad odors coming from Williamsburg Receiving. She said she was out walking this morning and it was very bad. She said during her walk she met a few of her neighbors and they all were complaining about the smell. I asked if this was the first time she had encountered these odors. She said that she has been smelling it off and on for a long time but today she had decided that she had had too much. She can't even sit out and enjoy her yard. I asked if there was any special time of day that seems to be a problem. She said it varies but early morning and evenings are usually the worst.

<b>REMARKS:</b>  <div style="background-color: black; width: 100px; height: 15px; margin-bottom: 5px;"></div> called in to report that the odor from Williamsburg Receiving was so strong it woke her up at around 5:00 AM this morning. She said it was still smelling and she is very concerned because she has a day care service and it affects her business. She said that the smell is so bad on Munro closer to the plant that she was riding her bike down there last week and the smell was so bad she had to cover her nose with her sleeve until she was out of the area. She said she no longer rides her bike in that direction.

<b>REMARKS:</b>  <div style="background-color: black; width: 100px; height: 1.2em; margin-bottom: 5px;"></div> called and left this message. Hi Mr. Retlewski this is <span style="background-color: black; color: black;">[REDACTED]</span> and I had called and also my husband had called last week. We live in Williamsburg Michigan. We called with regard to the toxic smells from the cherry farm production area close to where we live. Again over the weekend both Saturday and Sunday nights it was really bad to the point where we had to close the house up all windows because we don't have air conditioning. It must have been 85 to 90 in there. We would like to know what is being done. I know you guys have had numerous phone calls with regards to this matter. It seems like this has been going on way too long. We would just like to know what kind of action is being taken with regard to this matter. I know that depending on which way the wind is blowing numerous people in that whole area have witnessed the

<b>REMARKS:</b>  Allen Retlewski - Received two complaints regarding this facility. One was after working hours on 10/26/2004 and the other was 10/27/2004 at 10:00 AM. Both involved strong odors emitting from this facility. [REDACTED] said that her husband walked Munro Road along the length of Williamsburg Receiving's property line, the odors were strong the entire length of the property, and his nose and throat were burning after the walk.  Allen Retlewski is the inspector for this facility and recruited Rob Dickman to assist on this investigation. Upon our arrival to the area surrounding the facility, winds were out of the east-northeast at approximately 5-10 mph. No odors were noted on the upwind side of the facility. We checked the entire length of the property on the south side of the facility on Munro Road and

**REMARKS:**

found strong objectionable odors downwind of the buildings at the facility. We then went to [REDACTED] house at approximately 11 am. At that time, odors from the facility were quite strong. She said that the odors were at least that strong or stronger since she called the day before.

We then proceeded to the facility and met with Brian Smith the Director of Operations for the plant. Mr. Smith was aware of the odor problem and claimed to have informed Janis Denman, AQD Cadillac District Supervisor of it. Along with Mr. Smith there was Greg Moore, an account representative for General Electric. Mr. Moore explained that they are currently working on installation of an odor neutralization system. This system has apparently been used at other processing facilities with success.

We moved to the building that was the source of the odors. Prior to entering, it was noted that only one of three large garage door openings had a door. Mr. Smith explained that doors for the other openings had been ordered but would not be installed for at least a week. The inside of the building had a very strong garbage or sewer type odor. Mr. Smith said this was from a dumpster they were cleaning located inside the building. The odors we were experiencing were from cleaning activities of three large above ground storage tanks. Odors from these tanks again very strong. Upon inquiring why we were smelling these strong odors when it appeared that everything was contained in tanks and piping Mr. Smith revealed that the tanks were open at the top.

Mr. Moore again explained the intent to install an odor neutralization system. The neutralizer to be used is Prosweet OC 2533. Apparently this chemical is approved for use at food processing facilities. He was quick to explain that the compound is not a masking agent and contains no odor by itself. Al explained that this will only work on the air that can be collected and treated and emphasized the importance of getting the overhead doors up and installed.

In speaking of the neighbors, Mr. Smith described a very adversarial relationship with them. His claim is that his efforts to reach out to them have been met with much resistance. We encouraged him to look for ways to keep trying to show them they are controlling the odors, but he was somewhat despondent and defensive.

FACILITY: <b>WILLIAMSBURG RECEIVING AND STO</b>		SRN: <b>MISC-00264</b>

**REMARKS:**

We left the facility and met with another neighbor, [REDACTED]. [REDACTED] was able to confirm what [REDACTED] had said regarding the duration and strength of the odors from the facility. We then went back to [REDACTED] residence. Rob did not accompany Al to speak with her she found the facility's solution and their timetable for it to be less than acceptable.

It is my opinion that, unless the facility first can contain and control the air within this building, odors neutralization techniques will be less than effective.
